		Current Status			
PC022403-3	Conditioning for Qwest DSL Services in UNE-P and Resale Products at no charge to the CLEC/DLEC	Submitted 2/24/03	Wholesale ProdProc	Pre-Ordering, Ordering, Provisioning,	Resale UNE-P

Director: Campbell, Bill

Originator: Buckmaster, Cindy

Originator Company Name: Qwest

Owner: Buckmaster, Cindy

CR PM: White, Matt

Description Of Change

Qwest is offering the CLEC/DLEC/Reseller Community the opportunity to request Conditioning (Load Coil and Excessive Bridged Tap Removal) from any Resale or UNE-P copper facility for which the CLEC has ordered Data capability and has requested Conditioning according to the LSOG / ASOG requirements. This Conditioning will be provided to the CLEC/DLEC/Reseller at no charge. All Conditioning parameters will be defined by Qwest in applicable external documentation. Once CLEC/DLEC/Reseller Conditioning has been requested and performed, if the end-user's Voice Grade service is degraded beyond Voice capability, the necessary Load Coils will be restored and the CLEC who requested the Conditioning will be billed for this restoral.

This offering is being made for the Resale and UNE-P (as defined below).

The effective date of this CR will be determined following the discussion a CMP adhoc meeting. Prior to an effective date, current processes remain in effect.

Proposed Implementation Date: 4/15/03
