## Description Of Change

This CR is to enable the following:

- 1) Qualification of Loop without established telephone number utilizing address search for Resale Qwest DSL and UNE-P with Qwest DSL. This change is for the Pre-Ordering function.
- 2) The ability to submit a single LSR (N&T orders) for DSL and voice services. Products include Resale Qwest DSL, UNE-P with Qwest DSL, Line Sharing, Line Splitting, and Loop Splitting. This change is for the Ordering function.

Qwest is seeking an Exception to the CMP. The Qwest Wholesale CMP Document, in Section 10.4, states: "The SCRP may be requested up to five (5) calendar days after prioritization results are posted." Qwest is seeking an exception to this language and wants to invoke the SCRP for this CR.

Expected Deliverable:
