Description Of Change

WAC 480-80-206(3)(a) and (b) requires that "(3) Each telecommunications company offering service under a price list must include in each customer bill or notice: (a) The Internet address (uniform resource locator) of the website containing its price list; and (b) The toll-free telephone number to use in requesting price list copies and a statement that there is no charge for the price list copy."

Washington Utilities and Transportation Commission Docket Number UT020631 (7) states that "Effective August 28, 2002, through December 31, 2002, Qwest Corporation is granted a waiver of the requirement in WAC 480-80-206(3)(a) and (b) to include the Internet address of price lists and a statement of price list availability on each bill. To the extent other telecommunications companies use Qwest's billing and collection services, the waiver applies to those companies."

To meet this requirement, Qwest will provide the presentation of third party toll-free Telephone Numbers (one for general inquiries and another for rate information) and the presentation of the third-party biller's website will be available on paper and BillMate. As a result, BillMate will contain a new field that will only be populated with third party biller's information.
